## Language School & Study Programmes

The Heart of England Study Programmes is an established language school offering group study and tour programmes for school groups with and without English language courses. We have over 20 years' experience in organising such courses so you can be sure your students will be happy.

Our English language courses are set in the beautiful Heart of England. This area is famous for being the home of William Shakespeare, Warwick Castle, Oxford, Birmingham and The Cotswolds. It is also an easy train or coach ride to London.

**We run one to one and small closed group classes outside of our peak Easter and Summer times. The Young Learners Courses offer creative and inspiring lessons for young people aged 5 – 17 years old in a safe and stimulating environment. The lessons are designed to encourage interest in the language and be enjoyable and challenging as well as educational.**

It is becoming more common for children to move to the UK with their parents and so the language is now more essential than ever. We are also finding that parents are choosing to send their children with a small group of family or friends in off peak time to have lessons which can be specifically adapted to their needs.

By maximising their time on our programmes the children can return to their home countries with wider horizons and possibilities for the future. As well as improving their English skills we can help your children:

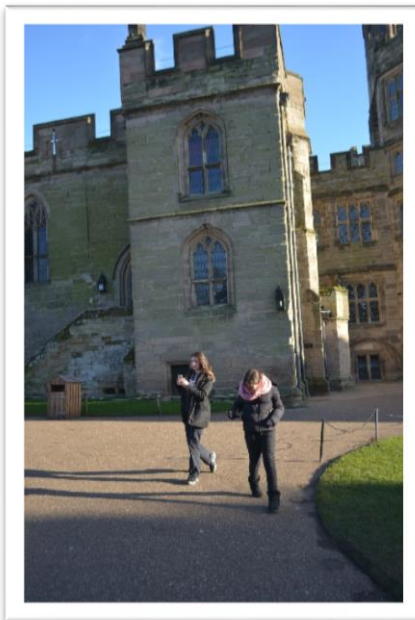

- Settle into a new school
- Develop language skills learnt at home
- Build confidence and take on new challenges
- Understand the benefit of having a second language

We feel small class sizes are essential to effective learning and so encourage one to one tuition where possible or have a maximum of 6 students in any closed groups.

## Language School & Study Programmes

Children learn easily and confidently. They do not feel self-conscious or intimidated by second languages. They learn native pronunciation quickly and are comfortable gaining speaking skills through songs, games and craft work for 5 – 11 year olds and debates, discussions, role plays, communication games, songs, drama and projects for 12 -17 year olds.

The students are taught with similar methods as for the camps and school groups with a focus on improving speaking and listening skills unless the parents request otherwise. The teachers adapt their classes to suit the age, maturity and interest of the child. The lessons do not always include structured grammar instruction but focus on building language naturally and weave in short sessions of areas of weakness where necessary.

We also believe that building the children's confidence helps them to feel relaxed which encourages them to experiment with their new language skills.

As an ABLS registered school we have a quality mark recognised throughout the industry for high standards and care. We are also a centre recognised for C1 PON course by Trinity College offering 3 or 4 weeks courses according to The National Operational Programme (NOP), financed by the European Social Fund (ESF).

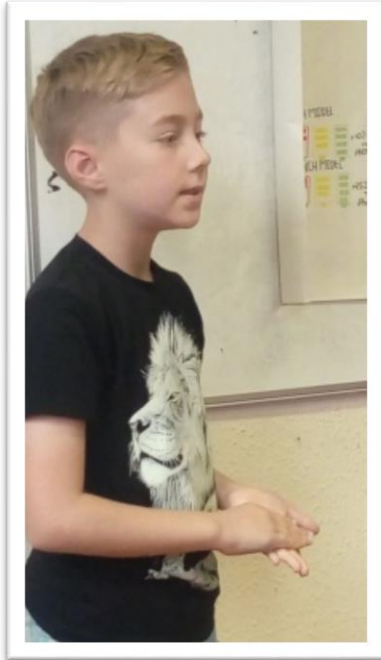

### Which private courses can I choose?
